

Bend & Shape 

DecoMark® Bend & Shape - Create your own decorative marking

Bend & Shape for creative Playgrounds

DecoMark® Bend & Shape provides a simple solution for creating your own playground designs and games. The only limit is your imagination!

DecoMark® Bend & Shape is suitable for bending into circular designs and curves, and combined with straight lines, can be used to form games and decorative symbols for school playgrounds and recreation grounds.

With DecoMark® Bend & Shape, you can also put circles and curves around other games and symbols.

*DecoMark®
Bend & Shape is a flexible
marking material produced in various
widths and a large range of colours*

Bend & Shape 

Living playgrounds with a creatively designed surface

Colourful with high UV resistance

DecoMark® Bend & Shape is made from a highly flexible thermoplastic material which lends itself to the cutting of decorative shapes and symbols. Moreover, Deco-Mark® Bend & Shape has a high UV resistance and therefore the colours tend to be fade resistant and will maintain their vibrancy for a longer period of time.

Size

DecoMark® Bend & Shape is available in 1000 mm x 50 mm and 1000 mm x 100 mm.

Imaginative and safe play

DecoMark® Bend & Shape is an easy option to refresh play areas and create imaginative games. The decoration will encourage interactive, but fun play for young children, a place to use some of their excess energy.

The high anti-skid content in the DecoMark® Bend & Shape material minimises the risk of accidents and provides safer play.

Fast application

Application is fast and simple, because it requires, one person, one broom and a gas burner! Sweep the surface thoroughly. Heat the application area to remove moisture and to warm the surface in cold weather. Bend and shape the material before using the propane gas burner.

Complete the application by heating the material until it adheres to the ground.

When applying in colder temperatures, gently heat the material to make it more pliable.

If you are in doubt, please ask your trained LKF contact for advice.

Environmentally friendly

DecoMark® Bend & Shape is environmentally friendly, it is non-toxic, containing no lead, chromates or heavy metals. The colour pigments are created from organic materials.

Bend & Shape, easy to manipulate - simply use a gas burner to fix in place

DecoMark® Bend & Shape is made in Denmark by LKF Vejmarkering A/S
