

Playground markings in Australia

Creative markings by Ground Splash

These DecoMark® markings are created and marked by Ground Splash in Australia. Together with their client, City of Onkaparinga Council, Ground Splash had the challenge to put as many games and activity into the limited concrete area of 8 x 5 metre, without making it look busy.

Ground Splash managed to put 4 impressive thermoplastic DecoMark® games into the grid, which is also a game itself! The design is laid in a reserve and local community play area in Morphett Vale, Adelaide, South Australia.
